While the NAS is a central storage device,

it connects to a network. This means that

you#39;ll#128079; need a LAN or router.

If your home network has only one computer and one

hard drive, this isn#39;t an#128079; issue because the PC can be connected di

rectly to the NAS via an Ethernet cable.

What Do I Need#128079; to Know About NAS? - ProMAX S
