Black Ops II is also the first Call of Duty game to include a competitive mode. Known as League Play, the mode allows players of similar skill level to be matched together, and play according to the rules of Major League Gaming.

The first major DLC pack is called Revolution. It was announced on January 8, 2013, and released for Xbox 360 on January 29 and PC and PS3 on February 28[56] The pack contained four new multiplayer maps: Downhill, Hydro, Mirage and Grind; and two new Zombies modes: Turned and Die Rise. Also included was the first DLC weapon: the Peacekeeper. Turned occurs in the Diner segment of the TranZit map from the original release, and allows up to four players to fight each other in two teams – one human against three zombies. The Die Rise map is a larger zombies survival map taking place in two semi-destroyed skyscrapers in Shanghai, where one to four players use elevators to travel between floors.[57]

Call of Duty: Black Ops II received "generally positive" reviews for the PlayStation 3, Xbox 360, and Wii U versions, but "mixed or average" reviews for the PC version, according to review aggregator Metacritic.[65][66][67][68] IGN editor Anthony Gallegos describes the game as "a good example of how to evolve an annualized franchise".[74] Gallegos praised the game for telling a story was genuinely interesting and creating a villain that he empathised with to the point of questioning his own actions over the course of the story. Gallegos directed criticisms at the artificial intelligence of allies in Strike Force mode and at the ending of the campaign, which he felt was disappointing even though he was aware that the outcome was directly influenced by the choices he made.
