About Monkey Go Happy Games
Monkey Go Happy Games owe their origin to the developer Pencilkids, who introduced the first game of this category in 2008. A unique blend of puzzle solving and humor, these games revolve around a series of sad monkeys that players must cheer up by performing various tasks. Aimed at players of all ages, these games have become popular for their quirky concept, emotional connection to the characters, and addictive gameplay.
In addition to making the monkeys happy, these games also highlight the importance of empathy and problem solving. By playing these games, individuals can learn to look at the bigger picture and strive to make others happy, mirroring everyday scenarios where we encounter people facing problems.

What types of Monkey Go Happy games are there?
