and tap the link to download the apk file.... 2 If your phone's web browser doesn't give you the option to open the file, you can use a social media app like WhatsApp to share the link with a friend who can help you download it. Alternatively, you can use a web browser that supports APK files, such as the Opera browser. Once you have the APK file, you can install it on your phone. To do this, you need to go to the settings and enable the option to allow installation from unknown sources. Then, you can tap on the APK file and follow the prompts to install the app. Once installed, you can launch the app and start playing.
